The Committee of the Privy Council have had before them a report dated 24th February, 1967, from the Minister of Finance and the Minister of Energy, Mines and Resources, representing:

That Atomic Energy of Canada, Limited votes L5 of the Main Estimates for 1965-66 and 1966-67 respectively authorized advances to Atomic Energy of Canada, Limited up to the amounts therein stated in such amounts and on such terms and conditions (including the delivery to Her Majesty in satisfaction of the advances, of obligations or shares of the Company) as the Governor in Council may approve to, inter alia, share in the construction of the Pickering Generating Station under agreement between the Federal Government, the Province of Ontario and the Hydro Electric Power Commission of Ontario;

The Committee of the Privy Council have had  
before them a report dated 28th February, 1967, from  
the Minister of Veterans Affairs, representing:

That section 8 of the War Service Grants  
Regulations specifies the particulars required and the  
method of execution, including verification by affidavit,  
of the written application to be completed by a veteran  
when applying to use his re-establishment credit to which  
he is entitled under section 9 of the War Service Grants  
Act;

That on May 22, 1965, veteran Emile Lortie  
(Regimental No. C-2117) had to his credit a balance of  
re-establishment credit in an amount of \$139.83;

That on May 22, 1965, veteran Lortie made certain  
proper purchases to the amount of \$139.83 and signed the  
departmental form of application, neglecting to have the  
statement mentioned in Regulation section 8(c) verified  
by affidavit. In addition certain blanks in the request to  
make the re-establishment cheque in an amount of \$139.83  
payable to the vendor were not completed;

That title to and possession of the goods  
purchased were transferred to veteran Lortie on the date  
of purchase, namely, May 22, 1965;

That veteran Emile Lortie died on June 19, 1965;

That my officials investigated the claim of  
the vendor for payment and obtained a Statutory Declaration  
from the manager of the vendor business and from the  
brother-in-law of the deceased veteran who were both present  
at the time of the purchase. The Declaration substantiated  
the claim of the vendor for payment; and

- 2 -

That officials in my Department are satisfied that if the application had been completed as required by Regulation section 8 the account of the vendor in amount of \$139.83 would have been paid by the issuance of a cheque to the vendor representing the balance of the re-establishment credit of veteran Emile Lortie in amount of \$139.83.

The Committee, therefore, on the recommendation of the Minister of Veterans Affairs, advise that Your Excellency may be pleased to authorize the acceptance of the written application for the use of the re-establishment credit of veteran Emile Lortie in an amount of \$139.83 in its present form as satisfying the requirements of the War Service Grants Act notwithstanding that it does not fulfil completely the requirements of section 8 of the War Service Grants Regulations.

of a disability pension of 50% or greater;

That veteran Gerald William McAllister is  
disabled to the extent of 50% by reason of a lumbar disc  
disease with laminectomy and chronic anxiety state but he

qualified veteran, on terms consistent with the Veterans'  
Land Act;

That certain farm chattels were also provided  
for the veteran;

That the cost of the land and farm chattels to

the veteran, the agreement between the veteran and the  
Director was rescinded in March 1965;

That the veteran, since rescission, has been  
permitted to lease the property from the Director;

That the property has not yet been advertised

That veteran Floyd Clarke Loft requests that the Director purchase a parcel of land containing approximately 21,176 square feet in area described as Lot 1, Plan 82 T for the City of Peterborough, in the Province of Ontario, along with a parcel adjoining said lot 1 but not part of a registered plan;

That veteran Floyd Clarke Loft took an option on the aforesaid two parcels of land considered to contain one-half of an acre but such transaction has to be approved by the Committee of Adjustment and the Ontario Municipal Board;

That after approximately 8 months the approval was obtained but it was then discovered that a turn-around, as yet not constructed but shown on the plan to be at the end of the street might affect the area of Lot 1;

That a subsequent survey disclosed that lot 1 did contain less than originally anticipated and the overall area of the two parcels was 21,176 square feet;

- 2 -

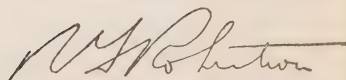

That it is possible to obtain an additional 700 square feet of land adjoining the aforementioned parcel but such would require the approval of the Committee of Adjustment and the Ontario Municipal Board with resultant loss of time as well as expenses, neither being justified by the value of the additional land;

That the property is ideally suited in relationship to the veteran's employment and for the educational requirements for his children; and

That in view of the relatively minor nature of the discrepancy and as veteran Floyd Clarke Loft was under the impression he was acquiring one-half of an acre, it is deemed advisable to establish him on the said parcel of land.

The Committee, therefore, on the recommendation of the Minister of Veterans Affairs, advise that Your Excellency may be pleased to approve the establishment of Floyd Clarke Loft on a property located in the City of Peterborough, in the Province of Ontario, containing approximately 21,176 square feet in area notwithstanding that it contains less than the prescribed minimum area of one-half of an acre.

This claim covers duty paid on aviation fuel delivered to aircraft clearing on qualifying flights during May and June 1965. The deliveries included in this claim had been deleted from claim M.55638 which had been mailed to another branch and, therefore, was not filed at a Customs Port within six months from the first clearance, as required by Memorandum D17-3.

These claims cover imported whisky used as a blend in the production of "Crown Royal" exported. Due to the fact that the product exported is a ten (10) year blend, the imported spirits became outlawed when not exported within three (3) years from the date of duty payment, as required by Memorandum D17-10. See copy of letter to company, dated February 2, 1966, file 7741-2.

This claim covers imported corn used in the production of spirits exported. Due to the necessity of aging the whisky prior to exportation, the imported corn becomes outlawed when the finished product is not exported within three (3) years from the date of duty payment as required by Memorandum D17-4.

Cornelius Manufacturing Co. Ltd.

This claim, which covers goods imported on December 6, 1962 and March 13, 1963, was filed on May 21, 1965. The regulations (D17-13) specify that claims must be filed within two (2) years from the date of payment of the Customs duty. The late filing of the claim was due to a delay in returning forms E15 (Certificate of Identification and Exportation or Destruction of Duty Paid Goods) to the claimant. This delay was beyond the control of the claimant.

M.55425	Dominion Engineering Works Ltd.	2,720.01
M.55811	<u>Dominion Engineering Works Ltd.</u>	2,802.42

These claims cover imported castings used by the claimant in the manufacture of equipment to be exported for installation at the Maraetai power station in New Zealand. Due to a change of plans, the foreign customer requested the claimant to delay the shipment of this equipment until further tests could be completed which would enable them to have this equipment installed at another power plant scheduled for completion in 1966. As a direct result of this request from the foreign customer, the claimant stored the equipment until exportation in 1965, at which time the three (3) year time limit specified in D17-4 had expired.

M.142	<u>Guay's Import Co. Ltd.</u>	242.77
-------	-------------------------------	--------

This claim covers goods imported from England and exported to the U.S.A. during the period June 4, 1964 to December 6, 1964. The claim, filed on April 15, 1966, does not comply with the time limits specified in D17-5. However, this is the first drawback claim presented by this company, also, the exporter contends that he was not aware of the drawback regulations with respect to shipments to foreign markets.

M.2746	<u>Raymond Ayrout Trading.</u>	636.76
--------	--------------------------------	--------

The goods included in this claim had been deleted from M.1160 as the claim had not been filed within two (2) years from the date of duty payment. The delay in filing the original claim was a direct result of problems in obtaining export documents from the port. These problems developed during the period of a strike of the stevedores at the Montreal wharf during which time the original set of B13 export entries was lost.

These claims cover duty paid on imported parts and materials used in the manufacture of electronic apparatus exported to Liberia. Due to a delay in the preparation of the installation site in Liberia, the claimant was requested to hold the equipment in storage until exportation was authorized by the foreign customer. As a direct result of this delay, exportation was not made within the three (3) year time limit specified in D17-4. Also, claim M.55419 was not filed within six months from the date of the last export entry covered by the claim.

This company is engaged in the manufacture of snow fence exported to the U.S.A. The imported galvanized wire was entered duty free during 1962 and 1963 and was ruled by Investigation Service in 1965 as being subject to duty. During the period of free importation no drawback claims were presented and, in fact, the claimant has stated that he was not aware of drawback regulations or procedures prior to the filing of this claim.

Maurice Babiuk Ltd.,  
Toronto, Ontario.

\$1,310.66 Tax

\$186.19 Penalty

This firm licensed to produce precast concrete products was assessed \$1,516.92 by an audit for the period July 1, 1963 to August 31, 1966. The licensee objects to payment of \$1,310.66 of the assessment as this represents tax on well tile sold to individual farmers. The tile was sold, exempt sales tax on erroneous information given by a member of this Department, who has since that time terminated his employment. As this money is not recoverable, payment would constitute a direct financial loss.

In view of the circumstances, it is recommended that remission be granted for tax of \$1,310.66 and accrued penalty of \$186.19.

Lady D'Or (Quebec) Ltd.,  
Montreal, Que.

\$4,721.41 Tax

\$1,215.97 Penalty

This was the unsuccessful venture of a U.S. firm which had previously exported bedspreads into Canada and thought to operate to better advantage in Canada forming a new company with a Canadian charter and using the manufacturing facilities of an unrelated company located in Toronto. After Lady D'Or (Quebec) Ltd., had ceased operations, audit disclosed errors in accounting for sales tax and an assessment of \$8,221.41 was established.

The debtor company, Lady D'Or (Quebec) Ltd., does not exist now. There are no assets in Canada. The U.S. parent company is not legally responsible and the Department has no recourse against that firm nor against any one in Canada.

The U.S. company, Lady D'Or Ltd., has paid \$3,500.00 with a request that it be accepted in full satisfaction of the tax of \$8,221.41 and applicable penalty. This is money which the Department could not recover otherwise and is offered as a good-will gesture.

Thompsons - Melita,  
Melita, Manitoba.

\$1,069.83 Tax

\$106.95 Penalty

An assessment of \$1,069.83 established against this licensee is for sales tax payable on sales of cistern liners. The District Collections Office in Winnipeg wrote the licensee on October 1, 1965 stating that plastic liners were considered taxable but this letter appears to have gone astray. On November 5, 1965, Mr. Thompson, partner, was asked for detailed information on his operations and was advised that following receipt of this information, he would be further advised of his liability. He readily furnished this information and in his reply mentioned that he had been previously advised to pay tax on the materials only. Considerable confusion existed until September 7, 1966 when he was officially advised to remit 11% sales tax on the sales value of cistern liners produced. In the circumstances remission of the amounts indicated is recommended.

XL Explosives Ltd.,  
Hawkesbury, Ont.

\$2,746.53 Tax

\$1,359.62 Penalty

This licensed manufacturer of ammunition was assessed \$6,703.47 by an audit for the period March 1, 1963 to December 31, 1964. Penalty accrued to date stands at \$1,359.62. The arrears accumulated due to a misunderstanding of instructions given by the Department. They had been advised to estimate tax by using their suggested sales tax included retail price, less an all-inclusive discount of 42½%. Since they did not have a retail price list they used their wholesale price list and took the same discount.

The president of the firm feels that the Department was not clear enough in their instructions and therefore the full responsibility should not be his. He has remitted \$3,956.94 and requests that this amount be accepted in full settlement of the account.

In view of the circumstances it is considered that the sum received is equitable and it is recommended that remission be granted for the tax balance of \$2,746.53 and penalty of \$1,359.62.

Herbert Zinser,  
Zinser Handcrafts,  
West Hill, Ont.

\$1,593.42 Tax

\$264.55 Penalty

This firm licensed to manufacture jewellery and candles was assessed \$1,593.42 by an audit. The assessment was the direct result of a misunderstanding of information given to the licensee orally and not confirmed in writing. The licensee mistakenly understood that Maple Leaf Pendants were not subject to Excise tax and therefore did not compute such on his invoices. Penalty of \$264.55 has accrued to date. Since the tax is not recoverable by the licensee, payment of these sums would constitute a direct financial loss.

In view of the circumstances, it is recommended that remission be granted for tax of \$1,593.42 together with penalty of \$264.55.

These cases have reference to the sales tax imposed on the manufacture and sale of lumber during 1963. Based on an estimate of conditions and practices in the lumber and related industries, it had seemed equitable to take into consideration the fact that some taxpayers, who were essentially retailers or wholesalers, could, in attempting to give complete service to their customers, engage in practices which oblige the Department to class them as manufacturers, for purposes of the Excise Tax Act. In view of this, discounts of 20% or 36%, depending on the circumstances of sale, were authorized, and this authority remained in effect until May 1, 1964, at which time the provision was cancelled. The cancellation was made public by a circular issued during April, 1964. The circular was given wide circulation but the terminology did not have uniform application throughout the industry, with the result that some firms, not recognizing their classification as manufacturers, continued to allow the discounts of 36% or 20% and, in consequence, to underpay tax to the Department.

The Department recognized the fact that hardship was caused through this misunderstanding. A circular letter was issued during July, 1964, in an endeavour to clarify the situation. In large part, the letter had the desired effect but, again, differences in methods of operation of building materials businesses caused the misunderstanding to persist, in some instances.

The Department has endeavoured to examine each case, where there has been underpayment of tax due to misuse of the discounts, and, while several cases were referred to the Department of Justice for legal proceedings, the cases listed on the attached statement justify partial remission. In many instances, of the cases indicated, financial hardship would be caused by insistence on payment in full. In other instances, it could be established that the taxpayers were misinformed and had done everything possible to establish their true liability.
